

TECH SESSIONS 2016

SBLAIR | 12.14.15

“We Make it. We Teach it. We Guarantee it.”

Griot's Garage has been manufacturing one of the most comprehensive lines of Car Care Products in the country for over 20 years.

From our manufacturing and distribution facility in Plainfield, Indiana where we formulate, mix, bottle and produce all of our liquids in-house to our corporate headquarters in Tacoma, Washington where we test, teach and sell our products in the Retail Flagship store...

Griot's Garage is committed to quality car care for the perfectionist! We stand behind our entire line of products with a lifetime guarantee.

Single Stage VS. Clear Coat

Griot's offers Tech Sessions to Car Clubs, One-on One Demos and Detailing Classes for Club events.

The type of Clear Coat and Paint on your vehicle will vary based on the age of the car, the manufacturer and type of application. For example many German manufacturers today have a harder clear coat, some have ceramic micro-spheres which rise to the surface during the curing process creating an ultra hard finish.

While these modern advances are made to protect the surface to be more resistant to etchings and acid rain, it can be a challenge to remove scratches and swirls.

This is why it is so important to maintain a healthy level of wax and sealant to protect your finish. We will show you the best products and tools to use to maintain your vehicle's exterior and interior.

Schedule a Tech Session, Demo or Detailing Class through our Car Care School located in our Retail Store.

Start with the Right Towels

Microfiber makes a difference
80/20 Polyester Polyamide Mix

Exploded end creates ultra-fine texture
and Maximum absorbency

Protective satin edges keep stitching away
from your paint

It's all in the Prep...

The most important step, get the car clean and contaminant free. This allows a proper inspection of the paint, glass and wheels to be made to help determine the level of polishing you will need to perform.

Preparation for Polishing:
Clay the paint to remove left over surface contaminants
Inspect the paint and get the right tools ready for the job

Benefits of Machine VS Hand Polishing
Where and when to apply each method

User preferences, is it a daily driver or a show car
How often do I want to wax
Am I looking for maximum shine, protection or both

Carnauba VS Synthetic

To determine which product to use ask the User Preference questions above. There are many different ways to approach care of a vehicle and the one you choose must suit the use of that particular car and the owners needs.

Size and shape of the water beading on your paint are a quick way to see the level of protection!

BOSS | BEST OF SHOW SYSTEM™

BOSS / BEST OF SHOW SYSTEM

G21/ G15

Performance:

Most powerful tool on the market

900 W Motor

NSK Bearings are the best in the world

Most effective and time saving defect removal

Control:

CNC Machined counter balance

Variable speed dial 5000 opm max

Variable speed trigger control throttle

Comfort

Multiple handles and Ergonomic features

Double shot rubber handle, platypus fore grip and

mid body grips to lower vibration and reduce arm fatigue

Creams

No fillers, you get what you see

Flexible, adaptive & effective paint correction

Sub-micron technology delivers a fast effective result

using top quality Aluminum Oxide granules

Pads

5/8" pad thickness, thinnest on the market delivers better transfer of torque and energy to paint surface

Increased pad rotation, effective heat dissipation

Inner Flex Pad adds depth to assist with detailing

contours for added security on edges

Don't neglect that Engine Bay

We have a variety of cleaners
and tools to make a dirty job
look easy!

INTERIORS AND GLASS

Dashboard cleaning and maintenance
Carpet cleaning tips for deep stain removal by hand
Dressings and UV protectant detailer
Proper cloths and brushes to use with products
Tornador for low saturation of surface and maximum cleaning

Leather Care products for cleaning and conditioning
How to clean perforated, vat dyed and alcantara leathers.
Proper application techniques for vintage leather and new leather vs leather look vinyls

Glass cleaning, Polishing and Sealing
Safe cleaners and applicators
Removing stubborn water spots
Benefits of Glass Sealant
Proper technique to avoid streaking

One last step.

The job isn't done until the wheels are clean. We have the tools and products to make the rims shine and the tires look new again.

Maintain that Perfect Paint

Care for your paint is a lot easier once the imperfections have been removed. We recommend using products between washes to keep that just polished look.

Technique is the key now when applying sprays and wiping them off. Use a straight line motion instead of a circular wipe to reduce potential swirl visibility.

Our products are PH balanced and safe for the environment and they smell great too!

Car Club Discounts & Perks

Indy Cafe

We offer a meeting space that is open for reservations at our Retail Store. The space includes a large kitchen area with full appliances, tables / booth seating, open floor space and a lounge area with large screen TV / DVD. The space is available for booking throughout the year.

Rare Cars, Coffee and Donuts

The first Saturday of every month we hold our Caffeine and Gasoline themed events with free coffee and donuts in the early AM. These events are open to all, the theme changes month to month in our indoor exhibit space and offers a monthly rotation of exceptional high performance, rare or vintage vehicles.

Exterior Car Show Space

We have a large parking area, covered space for a band, cookout or open air auction. The facility is open to Car Clubs to host a Show and Shine event of their own to raise money and recognition for the Club or Charity event. We often provide Griot's sample products to clubs in attendance or an auction donation.

Car Club Perks

We offer a discount to Club members who join our mailing list, a monthly raffle for prizes and other discount offers throughout the year. Schedule a Tech session and we will provide coffee and donuts for the members who attend.
